EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

SPECIFICATION

Page 1: after "Application Serial No. 10/347,813" insert --, now U.S. Patent No. 6,671,886, --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1-6 and 10-14 are allowable because the prior art does not teach a mask body with a fastener strap elongated form the mask body and having end portions, the end portions are adapted to extend through the rear crown portion of the headwear. The strap further includes hook and loop fasteners for releasably attaching with each other for engaging the mask body to the rear crown portion. This configuration particularly defines over Gomez (U.S. 5,950,241) which teaches headwear with a face covering having straps extend through the brim portion of the headwear. Claims 15-20 are allowable because the prior art does not teach a method of rallying a team at a sporting event including the steps of engaging a face mask to the rear crown portion of a headwear by extending strap end portions through the crown portion and attaching hook and loop fasteners at the ends of the strap together. The steps also include rotating the headwear about the wearer's head until a rear crown portion of the headwear is disposed above the wearer's face so as to position the mask over the wearer's face, displaying a team's design on the mask's outer surface, and motivating the team to rally during a sporting event.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
